

atlas-nz3-trg Outage

Jan 31 2026, 7:21AM NZDT

What happened?

At around 7:21am the Greerton, Tauranga location experienced a power outage caused by an internal fault in the local power supply. This caused our websites to be temporarily unavailable.

Impact:

- Users may have seen sites not loading or showing errors
- Some content may have been unavailable

Resolution:

The issue was caused by an external power fault. When power was restored and the server was brought back online, all services resumed normal operations.

Additional Notes:

We monitor our services very closely and have since updated our server configuration to automatically recover from power outages without requiring manual intervention. No data was lost.
